

“

Soccer has taught me that it's important to motivate and encourage peers so that they have a sense of acknowledgement of their hard work. Whether they did a great job or made mistakes it feels good to be approached with positivity. Even though I didn't start to play soccer until my sophomore year I do leave my senior year with great values learned from our soccer team.

WHO

We want to reach ALL students in Kansas City, KS. These students come from over twenty different countries from around the globe. Each student has a different culture, background and/or journey which makes their story truly unique.

Over 95% of the students in Kansas City, KS are a part of the free and reduced lunch program and/or receive fee waivers to take the ACT. Financial barriers are a common denominator for our students to overcome to achieve their goals.

WHAT

Our goal is to start a soccer club for students who cannot afford to play club soccer.

Coaches will disciple and mentor their players and introduce them to the Source of our hope through relationships developed playing the game they love.

WHY

KCK United will provide students in KCK an opportunity to play club soccer in their neighborhood at a low cost.

In the Great Commission (Matthew 28:18-19), Jesus commanded that we make disciples of all nations. We are starting this soccer club to share hope with those who have none and train them so that they can bring hope to others also.
